

main.c

Output

```
1  #include <stdio.h>
2  #include <string.h>
3
4  int main() {
5      char str1[100], str2[100];
6
7      printf("Enter first string: ");
8      scanf("%s", str1);
9
10     printf("Enter second string: "
11           );
12     scanf("%s", str2);
13     strcat(str1, str2); // joins
14                        str2 to str1
15     printf("After concatenation:
16           %s\n", str1);
17     return 0;
18 }
```

Run

main.c

Output

```
Enter first string: 2
```

```
Enter second string:
```

```
5
```

```
After concatenation: 25
```

```
