

main.c

Output

```
1  #include <stdio.h>
2
3  int main() {
4      int n, i;
5
6      printf("Enter a natural number:
7          ");
8      scanf("%d", &n);
9
10     printf("Factors of %d are: ", n
11         );
12     for(i = 1; i <= n; i++) {
13         if(n % i == 0) {
14             printf("%d ", i);
15         }
16     }
17     return 0;
18 }
```

Run

main.c

Output

Enter a natural number: 4

Factors of 4 are: 1 2 4
