

main.c

Output

```
1  #include <stdio.h>
2
3  // Function without arguments and
   without return type
4  void largest() {
5      int a, b;
6      printf("Enter two numbers: ");
7      scanf("%d %d", &a, &b);
8
9      if (a > b)
10         printf("Largest number = %d\n"
11                , a);
12     else
13         printf("Largest number = %d\n"
14                , b);
15 }
16
17 int main() {
18     largest(); // function call
19     return 0;
20 }
```

Run

main.c

Output

Enter two numbers: 15 8

Largest number = 15
