

main.c

Output

```
1  #include <stdio.h>
2  int main() {
3      int n, i;
4      printf("Enter a positive integer: ");
5      scanf("%d", &n);
6      printf("Factors of %d are: ", n);
7      for (i = 1; i <= n; i++) {
8          if (n % i == 0)
9              printf("%d ", i);
10     }
11     return 0;
12 }
```

Run

main.c

Output

```
Enter a positive integer: 8
Factors of 8 are: 1 2 4 8
```

```
